'Movie Under the Stars' returns to Moraga Commons

Photo Vera Kochan

Approximately 120 moviegoers turned out for the Sept. 10

Moraga Park Foundation-sponsored "Movie Under the Stars" event. Families braved a slightly chilly evening with jackets, blankets and lawn chairs to watch a free 8 p.m. showing of Pixar's "Monsters, Inc." at the Moraga Commons

Park. The Parks and Recreation-operated concession stand sold candy, popcorn and water, with the proceeds going toward next year's event.

EBMUD gives water conservation tips for current drought conditions

... continued from Page A4

The process of recycling wastewater by cleaning and retreating it to make it safe for use has already begun. While not quite safe to use for drinking, it could be used for other projects. Southern California has already begun making potable water out of wastewater. EBMUD plans to follow suit in the future.

Some easy conservation tips for homeowners include: irrigate efficiently by using sprinklers that help target water better; don't water turf more than three times per week; water at dusk or dawn; use self-adjusting irrigation controllers; while mulch is good for retaining soil mois-

ture, it is frowned upon in high-fire risk zones due to its flammability; find and fix leaks both in and outside the home; be mindful of indoor use (take shorter showers and use a bucket to catch cold water while waiting for the water to warm up).

EBMUD offers many cash rebates. The Lawn Conversion and Irrigation Upgrade Rebate Program can give residential customers up to \$2,000 back, and up to \$15,000 for commercial customers or multi-family (5 or more units).

For questions regarding water conservation or additional rebate offers contact: ben.glickstein@ebmud.com or akamensk@ebmud.com.

For more water conservation tips, visit www.ebmud.com/water/conservation-and-rebates/watersmart-tips/
