Small, simple steps to timeless design

Small pops of color, like this green dresser, pillow and plant, can make a simple elegant statement, while the organic weave in this rug adds texture. Photo provided

Organic Materials

There has been an increase in natural organic elements being brought into the home. Natural stone, rustic wood pieces, petrified wood, natural fabrics and live green plants are all actively in use. Bringing these pieces into your home can create both warmth and texture and create a great “layered” look if paired with warm metals like brass.

And while we are on the topic of trends, next month I will be attending High Point Market in North Carolina. High Point is the largest home furnishings industry trade show in the world, with over 10 million square feet of showrooms by roughly 2,000 exhibitors. In other words, it’s Disneyland for designers.

I will be posting my market finds on social media and providing those who follow along a sneak peek into all the best new items the home furnishings industry has to offer. You can follow me both on Instagram @amandacarolinteriors and on our Facebook page: Amanda Carol Interiors

Until next time dear friends!
