**Activating and balancing the Metal element in your home this fall**

The Metal element is still! When Metal is balanced we have been effectively spending up for ourselves, we are organized, our projects complete on time, we enjoy money, we are benevolent or helpful people, we feel the strength of our bones, back pain, we are able to keep our weight under control and enjoy a whole lot more for the future, when a longer career is on the card, consistent progress and growth.

Aspects to be ruled by the Metal element, which is more so this summer. Dry, strong energy, so in the autumn the light and power begins to shift and we are more contemplative as we generally working our gear into the fall. We know what we are harvesting and what we must let go of and ultimately release.

In terms of the Feng Shui Bagua map, the Metal element governs the western areas, as well as the Metal element governs the Metal element. There is a strong energy in the metal and north, looking into your home from front door, and take in the energy between door looking inward as you stand in the doorway. Activating the Metal element can include playing hard instrumental "spiritual" music, such as Tibetan singing bowls, metal bells, metal framed phone of joyful children in their Bagua area.

If their's single wall paper, I often will recommend a "light" wall with an all metal or white framed gallery of memorable or otherwise moments, involving in your care or activation of this Bagua area.
