Activating and balancing the Metal element in your home this fall

The Metal element is all! When Metal is balanced we have been effectively spending up for ourselves, we are organized, our projects complete on time, we enjoy money, benevolence or helpful people, we feel the strength of our bones, look new, we are able to finish jobs with charge and pride, a whole lot more for the force, when a longer career is on the card, consistent progress and gain.

Adapt to the Metal element, which is more so this summer. Dry, strong energy, so in the autumn the light and power begins to shift and we are more contemplative as general, working our gear with a renewed will for the future. We know what we are harvesting and what we must let go of and ultimately release.

In terms of the Feng Shui Bagua map, the Metal element governs the direction, as well as helpful people/friends.

There is a lot of energy for the winter and next spring, looking into your home from front door, and take care of the house, bedroom door looking inward as you stand in the doorway. Activating the Metal element can include playing hard instrumental "spiritual" or classical music, metal singing bowls, metal bells, metal framed photos of joyful children in their Bagua area.

If their energy will open, I often will recommend a "light" visit with an all metal or white framed gallery of memorable or otherwise moments, involving as in your care or activation of this Bagua area.

Activate the Metal Element Bagua areas with a metal light fixture or a Metal Buddha (helpful people)
By Michele Duffy

In the last few months I've shared a small bit about the wisdom of the Five Elements. Feng Shui literature describes and how to apply them at home, in accordance with the Feng Shui Bagua map.
